

6 JUN 1983

ODP #83-789

Mr. Albert M. Rhodes  
Comptroller  
Defense Mapping Agency  
U.S. Naval Observatory  
Washington, D.C. 20305

Dear Mr. Rhodes:

Thank you for your letter (U-5766/CMD, dated 13 May 1983) requesting transfer of two CIA-owned Burroughs B6900 computer systems to the Defense Mapping Agency. I am pleased to inform you, on behalf of the CIA, that your request has been approved and the transfer of ownership is being initiated.

As you are aware, these Burroughs systems became available for reassignment with the redirection of CIA's SAFE Project. As per the contract settlement agreement, CIA has been actively assisting Burroughs Corporation in locating Intelligence Community (IC) or related agencies with suitable requirements for these systems. I am particularly pleased that the systems will provide a timely solution to critical DMA requirements and will also result in cost avoidance for your agency. For your information in estimating this overall cost avoidance, these systems were acquired by CIA at a combined cost of \$538,840, which was 30 percent of the list price based on the FY-1982 GSA Schedule. The two B6900's are yours to use to satisfy the requirements in the reference at no cost to your agency, except for the shipping and installation charge described below.

The systems in question are located at the Burroughs Corporation test facility in Paoli, Pennsylvania. They are identified by Burroughs Corporation as the "UTS-1" and "SCH-1" processor systems with associated peripherals. Since the Government has yet to take possession of the systems, all new system warranties should remain in effect. We must ask that DMA assume responsibility for any charges associated with shipping and installation of the equipment. In order to schedule for these activities, we request you work directly with the Burroughs Corporation. Mr. Philip Schlingens, Branch Manager, Office of Secretary of Defense/Intelligence and Security, Standard Products Group, Burroughs Corporation, can provide you with the required assistance. Mr. Schlingens may be reached on (703) 821-0239. Upon receipt of the equipment, we would also appreciate a formal acknowledgment indicating your acceptance of accountability.

STAT  
STAT  
Finally, I would like to express my appreciation to Mr. Douglas Hurd of your organization for his capable assistance in arranging for the expeditious transfer of this equipment. Mr. Hurd has been in continual contact with the CIA action officer for this transfer, [redacted] of our Office of Data Processing. For additional information, [redacted] may be reached on [redacted]

STAT  
Once again, I am pleased that equipment excess to this Agency's requirements will be so productively reutilized by DMA. If I can be of any further assistance, please do not hesitate to call me on [redacted]

Sincerely,

[redacted]

Harry E. Fitzwater  
Deputy Director  
for  
Administration

### Explanatory Notes

- Subject: Self-explanatory - include ODP number if applicable.
- Purpose: What will action accomplish, e.g., "Reply to letter from OMB," "Obtain DDA approval to spend \$100M," "Comply with periodic reporting requirements," etc.
- Action Officer: Name, organization, extension.
- References: List of pertinent references. Copies should be attached in order listed.
- Resource Package and Costs: Identify the Resource Package and total costs for each fiscal year if the action involves funds.
- Routing: Who should see the action, whether for information, comment, concurrence, or signature/approval. The individual reviewing the action should initial and date where indicated. Place an "x" under the appropriate column for each component. If concurrences are contained on record copy of action, simply refer to the action.
- Discussion: Narrative discussion of action - what led up to the action, why is it necessary, what do you want done. The pertinent references should be explained insofar as they relate to this action. If the action itself contains all this information, simply refer to the action.
- Signature of Action Officer: Sign and date form.
- Classification: Mark at the top and bottom of page, as appropriate.

## LIST OF EQUIPMENT FOR TRANSFER TO DMA

## UTS-1 Processor System consisting of 11 items:

- 1 B6930 System with all standard features
- 1 A150 ICC Adapter with I69-A I/F
- 1 B6930-2 IOBM Exchange 2 Processor
- 1 B9387-44 2x8 Disk Pack Control
- 1 B9494-43 1206 MB Disk Data Bank
- 1 B9247-14 1100 LPM Printer
- 1 B6034-90 Disk Pack DLP (ICC)
- 1 B6930-3 IOBM Exchange 3 Processor
- 1 1002 ICC Cabinet
- 1 H028 System Software Package/B6900
- 1 ALGOL 68 Software

## SCM-1 Processor System consisting of 19 items:

- 1 B6930 System with all standard features
- 1 A150 ICC Adapter
- 2 B6369-1 32KB IC Memory
- 2 B6369-10 RS232 EIA Char I/F
- 1 B9387-44 2x8 Disk Pack Controller
- 1 B9494-44 1608 MB Data Bank
- 1 B9499-22 2x8 GCR/PE Tape Controller
- 4 B9495-24 6250 BPI/320 200 IPS Tape Unit
- 1 B9246-20 2000 LPM Printer
- 1 B6304-90 Disk Pack DLP (ICC)
- 2 RS422/RS 232 Interfaces (Black Box)
- 1 B028 System Software Package/B6900
- 1 ALGOL 68 Software
